## Introduction

The Department of Mathematics at Shah Abdul Latif University was established in 1987 and now is one of the fastest growing mathematics departments in the Pakistan. It has an excellent reputation, a strong, demanding program of BS, M.Sc. and MS/M.Phil courses with international syllabi offerings in accordance with the Higher Education Commission of Pakistan (HEC) directives. The department of mathematics has committed faculty members keen for progress and eager to emerge in world mathematics scenario; in this effort every faculty member is busy with their international research collaborators in projects with numerous publications. The department of mathematics has sufficient faculty with varied research interests in applied and pure mathematics which cater about over 300 full-time students in the BS program and 95 students in the MS/M.Phil Program.

Department of Mathematics also offers its services to other departments of the university in the form of teaching mathematics subjects to various faculties and their respective departments ranging from applicable algebra and calculus to decision makings of basic statistics and inferential statistics.

## Vision

Mathematics develops computational skills, critical thinking, and problem solving skills. The theory, discipline, and techniques taught in mathematics courses are especially important in today's society. The faculty of the Department of Mathematics recognizes this and strives to ensure that the students obtain this knowledge. At the same time, the faculty contributes to the discipline by fundamental research in pure and applied Mathematics.

## Mission Statement of the Department:

The Department of Mathematics offers courses and programs of study that ensure that the student will be able to contribute to the society. The students will obtain abilities to critically assess numerical and graphical information; learn to formulate strategies for solving problems; and acknowledge the importance of being intellectually curious throughout their lives. The Department, through its faculty, will continue to contribute to the body of knowledge of the discipline, whether in traditional research, or applied research.

## Mission Statement of the University:

$\checkmark$ To provide affordable and accessible quality Under-Graduate, Graduate and PostGraduate degree Programs, national and international in scope.
$\checkmark$ To care and promote quality research environment provide consulting faculties to industrial/Business and services sector with a realization of needs of community and national responsibility towards economic growth and welfare.
$\checkmark$ To build national character and put focus on production of quality graduates to contribute in the economic, Industrial and social development of the country.
$\checkmark$ To promote a campus environment that welcomes and honor women and men and an atmosphere that values intellectual curiosity, pursuit of knowledge, and academic freedom and integrity.

## Objectives

The students after completion of the graduate and post graduate study in Mathematics should be able to:

- Be familiar with that mathematics is an art as well as a dominant initial tool of science with vast applications.
- Validate an understanding of the theoretical concepts and axiomatic foundations of Mathematics and an ability to build proofs at the appropriate level.
- Show competency in mathematical modeling of complex phenomena, problem solving and decision making in life.
- Determine a level of proficiency in quantitative and computing skills adequate to meet the demands of society.

## PROGRAMS OFFERED

## Criterion 1: Program Mission, Objective and Outcomes.

Standards 1.1: The program must have documented measurable Objectives that support Faculty / Institution Mission Statements.

## Program Objectives:

| Table1. Shows how Objectives are measured and Improvements have been identified |  |  |  |
| :--- | :--- | :--- | :--- |
| Program Objectives Assessment |  |  |  |
| Objectives | How Measured | When Measured | Improvement <br> Identified |
| Develop an <br> understanding of the <br> problems. | Excessive teaching of <br> text at length. | Since the start of <br> session. | Students are tested by <br> examination. |
| Become prepared for <br> careers in mathematics <br> and related field | Transfer of knowledge <br> and practical exercises | Routinely in well- <br> equipped problems | Problems are performed <br> to check the ability. |
| Develop discipline in their <br> organization | Extra classes are <br> conducted by professors <br> of the field | Throughout BS and <br> M.Sc. problem | Behavior is observed by <br> assigning them related <br> activities |

- Note: Improvement Made: This will be informed after AT visits.

Standard 1-2: The program must have documented outcomes for graduating students. It must be demonstrated that the outcomes support the program objectives and that graduating students are capable of performing these outcomes.

Table: 2. The following Table shows how program outcomes support the Program Outcomes.

| Program Objectives | Program Outcomes |  |  |
| :---: | :---: | :---: | :---: |
|  | 1. | 2. | 3. |
| Develop an understanding of problems and nature of problems to solve it. | Students reached in the field of research and development organization are performing very well | ------------ | ------- |

| XX | Relevant \& satisfactory |  |  |
| XXX | Very relevant \& satisfactory |  |  |
| XXXX | Highly relevant \& highly satisfactory |  |  |

Standard 1-3. The result of program's assessment and the extent to which they are used to improve the program must be documented.

## Major Future Improvement Plans:

(5) To impart quality education in the department using audio visual aids and modern tools along with provision of latest literature, journals, books, reviews and access to internet.
(\%) To upgrade Graduate \& Post Graduate Laboratories with the modern \& sophisticated equipments

To To emphasize problem oriented research work on specific areas related to plants.
(8) Overall enhancement of knowledge and skills of faculty members in relation to the latest global advancements in various discipline through exchange programs, short trainings and collaborative research projects within and outside country.

Standard 2-6: Information technology component of the curriculum must be integrated throughout the program.

Has the IT program been included in the course: Yes $\sqrt{ }$ No
Standard 2-7: Oral and written communication skills of the student must be developed and applied in the program.

Is there any oral/written communication skills have been included in the program: Yes $\sqrt{ }$

## Criterion 3: Laboratories and Computing Facilities:

Standards: 3-1. Laboratories and computing facilities must be adequately available and accessible to faculty members and students to support teaching and research activities.

## Criterion 4: Student Support and Advising:

Students must have adequate support to complete the program in a timely manner and must have ample opportunity to interact with their instructors and receive timely advice about program requirements and career alternatives.

Standard: 4:1. Courses must be offered with sufficient frequency and number for students to complete the program in timely manner.

Table: 9. Shows classes/week of Major Courses offered in 4 -Year program.

Standard: 4:2. Courses in the major are must be structured to ensure effective interaction between students and faculty and teaching and teaching assistance?

## (1) Well structured $\sqrt{ }$

Standard: 4:3. Guidance on how to complete the program must be available to all students and access to academic advising must be available to make course decisions and career choices.

Are students informed about program requirements?
(1)
(2) To some extent $\sqrt{ }$
(3) Fully

Does there student advising system exist and how effective it is?
(1)
No $\sqrt{ }$
(2) To some extent
(3) Completely

Have students access to professional counseling?
(1)
No $\sqrt{ }$
(2) To some extent
(3) Full

Do the students have interacted with practitioners and to have membership in technical \& professional societies?
(1) No
(2) To some extent $\sqrt{ }$
(3) Full

Criterion 5: The processes by which major functions are delivered must be in place, controlled, periodically reviewed, evaluated and continuously improved. To meet this criterion a set of standards must be satisfied.

Standard 5:1. The process by which students are admitted to the program must be based on quantitative and qualitative criteria and Cleary documented.

Program/credit transfer: N.A.
Transfer of a student from outside the university: N.A.
Admission Criteria: The admission policy is constituted by the "Admission Committee" consists of Deans, and senior faculty members of the university. The departments have no any role. The departments follow policy made by them which is also mentioned in "Prospectus of the university". However, the admission criteria are evaluated but not regularly.

Standard 5:2. The process by which students are registered in the program and monitoring of students progress to ensure timely completion of the program must be documented this process must be periodically evaluated to ensure that it is meeting its objectives:

How frequently admission criteria are evaluated?
(1) None
(2) Not regularly $\sqrt{ }$
(3) Every Year

Are the evaluated results used to improve the results?
(1) No

Standard 5:3. The process of recruiting and retaining highly qualified faculty members must be in place and clearly documented. Also processes and procedures for faculty evaluation, promotion must be consistent with institution mission statement. These processes must be periodically evaluated to ensure that it is meeting with its objectives.

- Shah Abdul Latif University strictly follows the policy of "Equal Opportunity" regardless religion, race, faith, cast \&creed, gender regarding recruiting faculty including admissions, educational programs and employment.
- The University applies standard operating methodology for evaluation, such as Annual Confidential Report (ACR), required research papers, teaching experience and all other conditions as directed by the HEC. Thus
- This process ensures the objectives of the program mission.

Standard 5:4: The process and procedures used to ensure that teaching and delivery of course material to the students emphasizes active learning and that course learning outcomes are met. The process must be periodically evaluated to ensure that it is meeting its objectives.

- It is strictly observed that the time table is followed by the faculty. However, Weaknesses $\boldsymbol{\&}$ Strengths have been observed through the student feedback for the "Course Evaluation". The department needs to improve in various aspects.

Standard 5:5: The process that ensures that graduates have completed the requirements of the program must be based on standards, effective and clearly documented procedures. This process must be periodically evaluated to ensure that it is meeting its objectives.

The process for the degrees of BS-4 year has been well designed by the Board of Advanced Studies \& Research (BASR) followed by the HEC directions. Details are as under.

| Degree | GPA/Class/GRE | Interview |  |
| :--- | :--- | :---: | :---: |
| BS-4 Year | Pre-Admission Test (NTS) style | X |  |

This process must be periodically evaluated to ensure that it is meeting its objectives. (Yes) $\sqrt{ }$
The department ensures that the graduates actively participate in laboratory work, punctual in the classes, maintaining attendance over $\mathbf{7 5 \%}$.

Criterion: 6. Faculty. Faculty members must be current and active in their discipline and have the necessary technical depth and breadth to support the program. There must be enough faculty members to provide continuity and stability, to cover the curriculum adequately and effectively. To meet this criterion the following standards must be satisfied.

Standard: 6: 1. There must be enough full time faculties who are committed to the program to provide adequate coverage of the program areas / courses with continuity and stability. The interest of all faculty members must be sufficient to teach all courses, plan, modify and update courses. The majority must hold a Ph.D. degree in the discipline.

Table: 10.Program areas and number of faculty in each area.

Standard 6:2. All faculty members must remain current in the discipline and sufficient time must be provided for scholarly activities and professional development. Also, effective programs for faculty development must be in place.
a. Participation in seminars, conferences at National/International levels.
b. Research proposals for funding and linkage with other Institutions.
c. Taking classes, involved in research and reading new books in the relevant field.
d. Publications in HEC recognized journals or journals having impact factors.
e. Organize workshops, seminars and conferences.
f. The department arranges lectures from eminent scholars on various topics of the subject for its students and faculty at National level.
g. Prepare their resume in line with HEC guidelines.

## Faculty Development Program:

Standard 6:3. All faculty members should be motivated and have job satisfaction to excel in their profession.

The following criteria are under practice in order to satisfy the faculty members in their profession.
a. Fair, timely selection, appointment / promotion as per HEC policy.
b. Providing Tenure Track salary package
c. Excellent working environment.

## 1) General Comments:

a) Teachers have expressed their views that seminars, symposiums and conferences, in general, have motivated to impart the new techniques and methods of teaching.

Suggest programs / factors that could improve your motivation and job satisfaction?
b) More faculty members may be appointed on the regular basis or contact to cover the workload as per HEC policy.

Criterion: 7. Institutional Facilities. Institutional facilities, including library, clean rooms and offices must be adequate to support the objectives of the program. To satisfy this criterion, the following standards must be met.
Standard 7:1. The Institution must have the infrastructure to support new trends in learning such as E-learning.
Standard 7:2. The library must possess an up-to-date technical collection relevant to the program and must be adequately staffed with professional personnel.
Standard 7:3. Class rooms must be adequately equipped and offices must be adequate to enable faculty to carry out their responsibility.

Details of facilities available in the deportment:

| Item | Position | Remarks |
| :--- | :---: | :--- |
|  <br> Books/Journals | Good Number of Books <br> Available | Needs more books including research <br> journals |
| Computer Labs | One | At least 5 computers needed for <br> research scholar |
| Class Rooms | Only two Class Rooms are <br> Available | At least two class rooms needed |
| Girls Common Room | No | Needed |
| Faculty Offices | 08 | At least 3 offices needed |
| Internet \& Digital Library | No | Needed |
| Computers | 03 | At least 5 computers needed for BS <br> Students and M.Phil Scholar Students |

Criterion: 8. Institutional Support. The institution's support and the financial resources for the program must be sufficient to provide an environment in which the program can achieve its objectives and retain its strength.

Standard 8:1. There must be sufficient support and financial resources to attract and retain high quality faculty and provide the means for them to maintain competence as teacher and scholars.

Standard 8:2. There must be an adequate number of high quality graduate students, research assistants and Ph.D. students.

Standard 8-3: Financial resources must be provided to acquire and maintain library holding, laboratories and computing facilities.

- The University provides resources to maintain library\& laboratories.

Does the department provide opportunities to the faculty members to attend international / national conferences?
